

Diversey

**Divermite®**

Your entire kitchen  
thoroughly cleaned

## Always accurate dosing

With the Divermite system from Diversey you can be assured of accurate cleaning detergent dosing. The system is easy to use and delivers maximum efficiency and cleaning performance, resulting in reduced costs and increased efficiency for you.

### Easy to use and efficient

The Divermite system consists of an easy to use dispenser that can be placed on the wall so that the system does not take up any work surface. The robust pouch with highly concentrated product only takes two seconds to be placed into the dispenser. Pressing the button once gives the exact dosing for a bucket of 5L of water. Due to a built-in block, overdosing is not possible and the button cannot be pressed twice in a row. After 8 seconds the dispenser is ready for use again. Divermite ensures you always have the correct dosage, meaning reduced costs and environmental impact.

### Safe in use

The use of concentrated product formulations guarantees one pouch lasts for up to 100 buckets of cleaning solution. The easy to use dosing button and the built-in block make sure you use cleaning detergents efficiently.

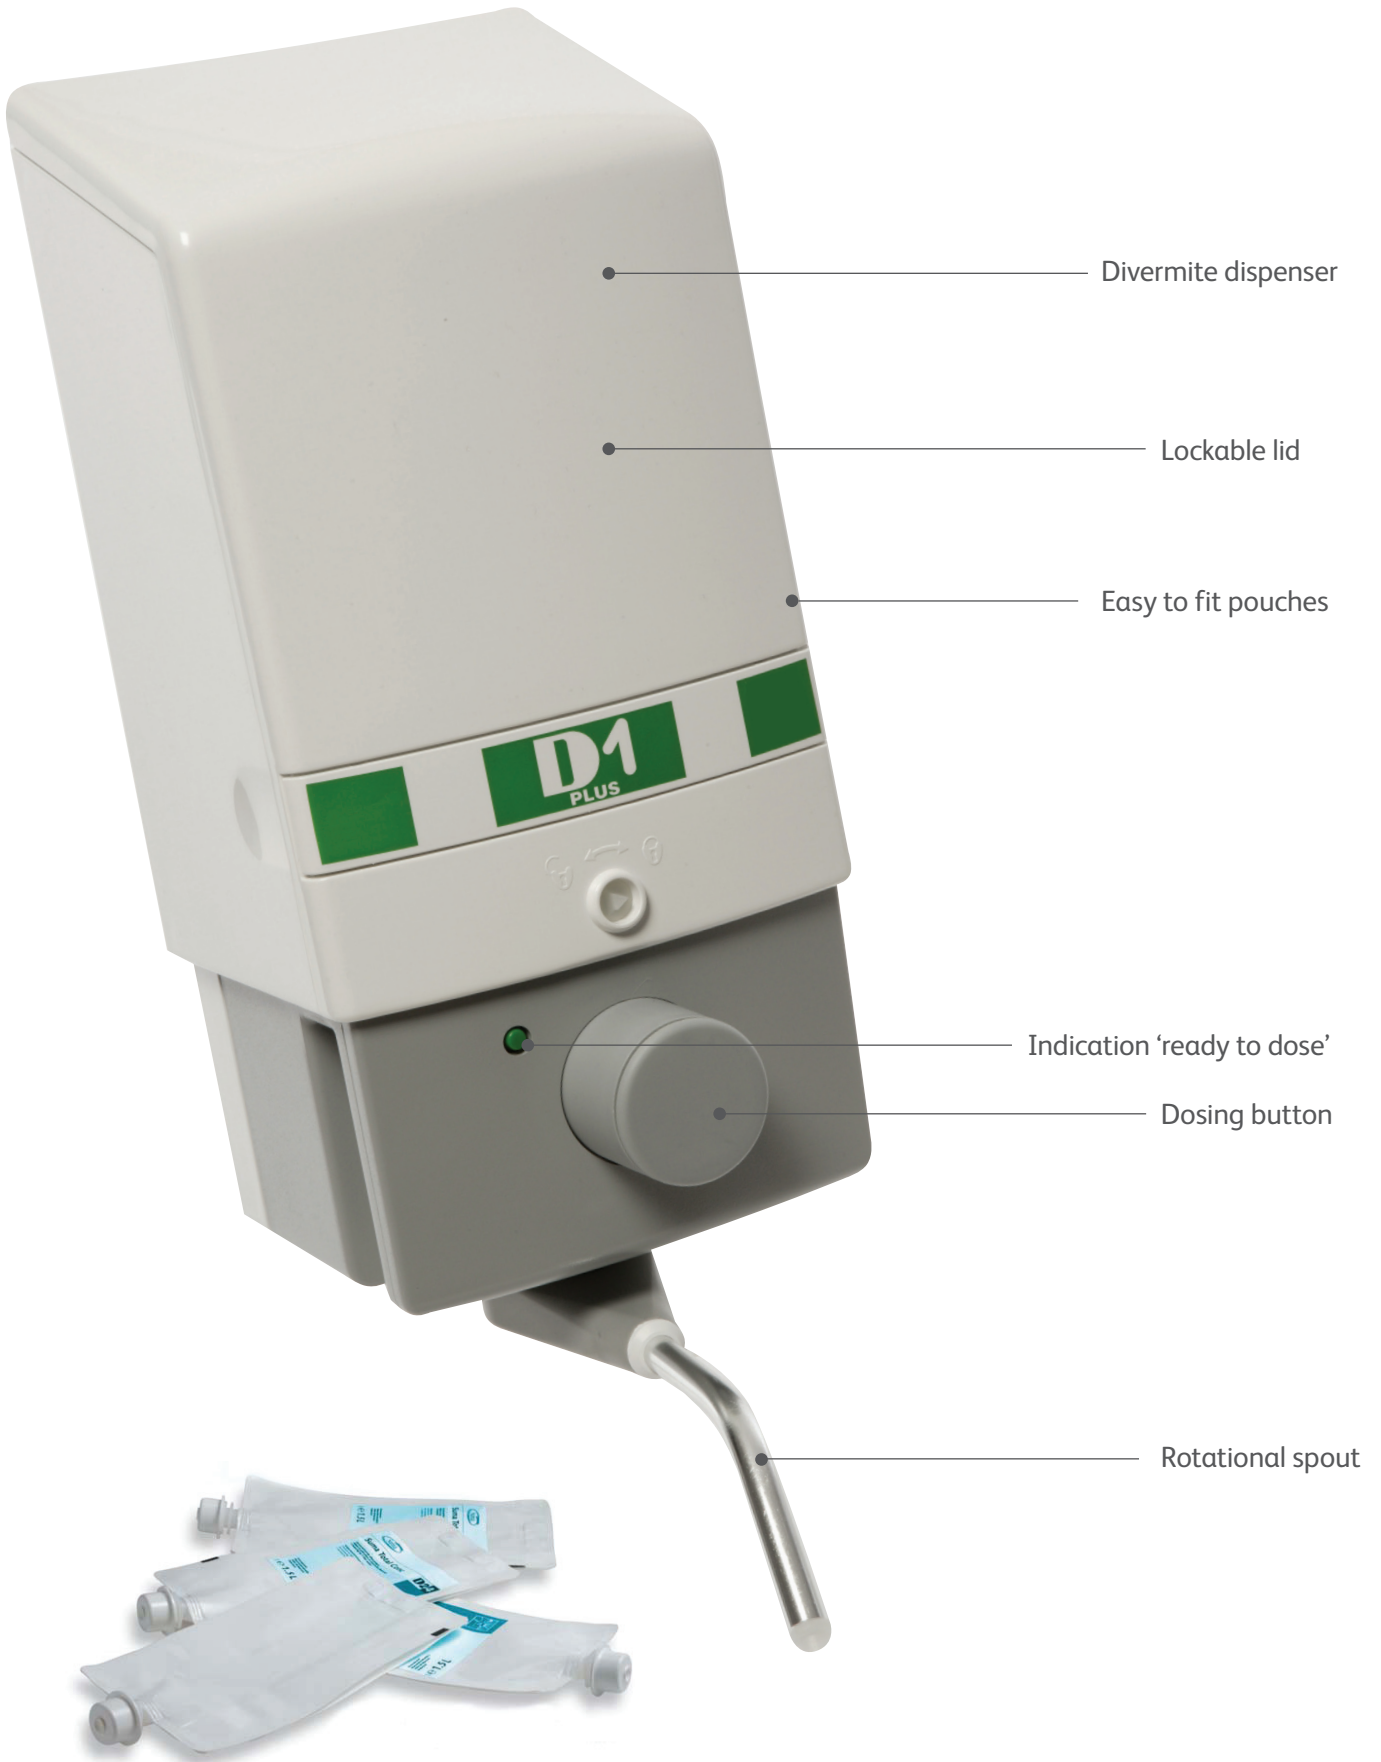

### Your benefits

- Highly concentrated products for all cleaning needs
- Your entire kitchen is quickly and thoroughly cleaned
- Always the correct dose
- Reduced cost and environmental impact
- Easy to assemble
- Easy to refill

- The complete system does not take up any work surface space
- No loose bottles lying around the kitchen
